

WHICH WOULD YOU CHOOSE?

Mako-Board™

Recyclable, Smooth Bright White Surface

verses

Channel Plastic

Not Easily Recycled, Flute and Shadows

SAVE MONEY AND THE ENVIRONMENT

Why choose the second best materials for your signs and displays? If you want the best, choose the best. Choose Mako-Board™ for your outdoor signs and displays.

-  FSC certified, easy to recycle.
-  Contains more than 50 % recycled content.
-  Superb and precise cutting results.
-  Reduce transport and storage costs by up to 66 %.
-  Less transport means less fuel consumption.
-  Far superior print results, no flute shadow.
-  Suitable for digital, offset and screen printing.
-  A large range of board sizes and thicknesses.

Channel Plastic

-  Not easy to recycle.
-  Recycled plastic content is unclear.
-  When cut, exposes unattractive fluted core.
-  Higher thickness results in higher transport & storage costs.
-  More fuel consumption due to thicker sheets.
-  Flute shadow gives cheap look and appearance.
-  Unsuitable for traditional offset printing.
-  Only available in limited thicknesses.

.9 mm/ 1/32" • 1.5 mm/ 1/16" • 2.2 mm/ 3/32"
